Eagle Roofing Products' New Stocking Yard To Provide Immediate Product Availability To Southeast Florida Customers

RIALTO, Calif., Sept. 7, 2007 – Further extending its commitment to providing unsurpassed service, Eagle Roofing Products Florida LLC, a subsidiary of Burlingame Industries, today announced the grand opening of a product stocking yard to support customers in Southeast Florida.

The new facility, located in Deerfield Beach, just south of Boca Raton, will provide roofing customers with immediate accessibility to many of Eagle's most popular roof tile profiles, as well as accessories such as oxides, hip starters, wind clips and eave closures.

Twelve of Eagle Roofing's most popular colors for the South Florida market are in stock for immediate order and pick-up. Available standard weight roof tile include six color selections of Malibu, a low profile tile that accentuates classic Spanish, Mediterranean and Italian architecture. Also available are four colors of Capistrano, a roof tile that works naturally with Spanish Colonial, Mission and Villa architectural styles. For those customers favoring roof tile with clean lines that enhance the look of French Country, Farmhouse or Victorian architecture, two additional colors of Bel Air roof tile are kept in stock. In addition to these stocked colors, Eagle's entire Florida product line can be ordered and shipped to Deerfield for convenient pick-up.

"Eagle Roofing Products has built a reputation for being the industry leader in service by listening to what our customers want and reacting quickly to meet their needs," said Hawk Kinney, Eagle Roofing Products' Florida sales manager. "From architectural diversity to shipping simplicity, this new facility will provide our Southeast Florida customers the convenience they have requested."

Located at 1801 SW 42nd street, the Deerfield Beach stocking yard will serve as a convenient distribution point for customers throughout Southeast Florida including those in Indian River, Saint Lucie, Palm Beach, Martin, Broward, Miami-Dade and Monroe counties.

The opening of Eagle's stocking yard is yet another example of how the concrete roofing manufacturer listens and is responsive to the needs of customers. In April 2007, Eagle Roofing Products opened a Design Center in Boca Raton thus enabling distributors, roofers, homeowners, builders, interior designers, architects and roof consultants the unique opportunity to view samples of Eagle's roof tile selections. Conveniently located 5 minutes from Highway I 95 in the Boca Design Center, Eagle's Design Center provides a comfortable setting in which customers can see, compare and contrast multiple roof tile selections, as well as consider other exterior accent materials. A professional design consultant with more than 20 years of design experience is on hand to assist customers and help make informed decisions regarding their roofing needs.

For additional information on Eagle Roofing Products' roof tile or Design Centers, contact Melissa Pellerito, marketing communications manager for Eagle Roofing Products, at (909) 355-7000 or visit www.eagleroofing.com.
