

Introducing Artisan.

*Malibu Artisan
29706 Grand Canyon*

Inspired by the rugged, painted landscapes of the American Southwest, our new Artisan product is unlike anything else. These concrete tiles are created in a single base color, then are treated with a unique process that creates random streaks in beautiful accent colors so that no two tiles look the same. The result is a rustic, natural aesthetic similar to clay in a durable, easy-to-install concrete tile that will dramatically enhance any home with striking beauty.
