

Eagle Solar
Roofs

with SolarBlend™
from **SUNTECH**

Sell More Homes with the Eagle Solar Roof

*Communities of 50+ homes
must offer solar
as an option in **2011****

**Homebuyers will save
\$40 to \$120 per month
with a 2.5 kW Eagle
Solar Roof System**

- Sell more houses with solar by offering homebuyers what they're requesting across California communities
- Customized marketing tools to help promote solar home sales (model home collateral, press releases, banners, posters, etc.)
- Eagle Solar will train your model home sales representatives
- Ongoing homeowner customer service via 1-800 number

The Eagle Solar Roof is the Best Option for Builders

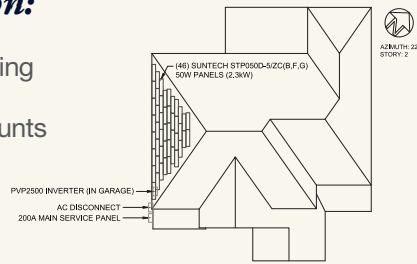

- Eagle manages the process from engineering to rebate paperwork to homebuyer move in
- Adding Eagle Solar will not extend your construction time line or add new contractors
- Eagle has provided over 850 residential solar systems
- Eagle Solar understands the challenges builders face in adding solar to projects

→ *Our expert team is here to support you*

Eagle Solar Offers a Comprehensive and Cost-Effective Solution:

- Solar system design and engineering
- Net-of-rebate pricing: Eagle discounts state/utility solar rebates

Best-in-Class Components, Efficiencies and Warranties

- Most advanced building integrated photovoltaic (PV) solution
 - ➔ *SolarBlend™ tiles designed as a roofing product*
- 25-year power production warranty from Suntech (largest crystalline panel manufacturer in the world)
- Solar system monitoring for each home
- Leading inverter and system monitoring platform

Builders and Buyers Assured That Systems are Professionally Installed

- Installation by trusted, existing roofing and electrical contractors
- Why pay more when you can use your own subcontractors?
- Maintain roofing warranty. One warranty on roof.
- On-site technical training for your contractors

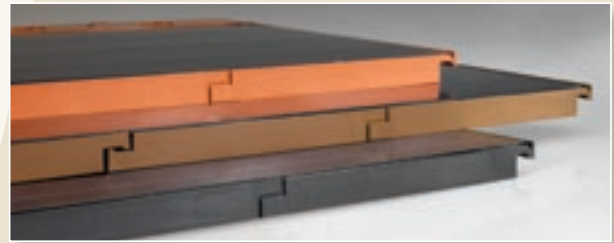

- **Lease/PPA financing solutions available from several providers**

The Eagle Solar Roof with SolarBlend™ is Clearly the Most Attractive Solar Installation Option

SolarBlend™ Tile Advantages:

- Solar tile colors complement builders' roof and exterior color schemes

➔ *Available in grey, brown and terra cotta frames*

- Class-A fire rated installation
- Integrates with both flat and S-tile tile roof systems
- Maximum power for available roof space
- Enhanced system with Eagle Roofing Products' Cool Roofs & Energy Saving Roof

➔ *Eagle offers "Cool Roof" rated tiles which are eligible for credit in Title 24 calcs*

➔ *Eagle Solar Roofs and Cool Roofs can earn rebates for builders under the California Advanced Homes Program*

What people are saying about Eagle Solar Roofs:

“The Eagle Solar Roof has been a tremendous asset to our communities. Eagle’s unique integrated solar tiles and sales support tools have aided us in providing value to our energy conscious buyers. William Lyon has benefited from using the Eagle Solar Roof solution for its solar energy needs.”

Mike McMillen

Vice President, Senior Project Manager, William Lyon Homes

“When you add the economical aspect of available tax credits and paying for the solar roof as part of their mortgage, Eagle’s solution is a cost-effective way to own an aesthetically pleasing and energy efficient system. And, when you consider Eagle’s long-standing reputation for unsurpassed quality, offering its solar roof to our customers is an unbeatable option they can’t pass up.”

Norman Ho

Director of Architecture & Purchasing,
Warmington Residential No. California

“As a builder, it’s our mission to provide homeowners the highest level of satisfaction by building homes of lasting value. It is because we take our responsibility to heart that we chose to work with a company like Eagle whose reputation for customer service and product reliability are above reproach.”

Cindy Douglas

Vice President Sales and Marketing
for Ponderosa Homes.
