# Boosted Accessory Pieces

*It's easy to create the beauty of an authentic mortar-boosted clay roof with our Boosted accessory piece. These individual Boosted pieces are available in a wide range of colors intended to create a rustic look. Simply select from any of our Boosted colors to complement your Capistrano and Malibu tiles. For best results, mix your Boosted color and base color as this will add to the authenticity of your roof.*

Choose a Boosted accessory piece to go with your base field tile. Then decide how much "Boost" to use and how you would like your mortar to look. Some prefer a neat treatment, while others like an authentic look. No matter your choice, your new Boosted Eagle roof will be beautiful for years to come.

**Blended tile provides added value and beauty to any architectural structure. However, it requires careful tile placement by your roof contractor, who is responsible for insuring that the placement of the tile is completed in an aesthetically pleasing manner. Eagle Roofing Products recommends that you discuss this design effect with your roofer, prior to installation, to ensure that no hot spots (patches of color that undo the blended effect) are created.**
